

Main Terms Applicable to Companies Registered In Pakistan under the REX Scheme of the EU-GSP

In accordance with terms of the REX Scheme of the EU-GSP, immediately upon registration of your company under REX (from the next day) your company will start performing its own Origin Certification of export consignments by issuing Statement on Origin (SOO) itself for your exports to the EU, Switzerland and Norway under the GSP preferential scheme. Furthermore, upon registration to REX your Company no more remains eligible for getting the Certificate of Origin (COO, i.e. Form-A) issued through the TDAP. A list of “countries” for which your company is authorized to issue SOO after REX registration along with the generalized statement of “text” that your Company should utilize for issuance of the SOO is annexed for ready reference.

Your company’s REX Registration has no expiry date and will remain valid so long as Pakistan is eligible to enjoy preferential treatment under the GSP Scheme. However, your REX Registration can be revoked at any time during this period in case of non-compliance to terms of the REX Scheme of the EU-GSP. This could take place with or without issuance of prior warning(s) by the TDAP depending on the nature and frequency of non-compliance(s)/ violations. Following are the main terms that your Company is required to comply as per requirements of the REX Scheme:

1. Make out SOO only for goods which qualify for preferential treatment and comply with the origin rules specified for those goods in the GSP scheme.
2. **On a monthly basis submit to TDAP the copies of all SOOs made during the month along with its summary statement latest by 15th of the following month.**
3. Submit at TDAP’s request, all appropriate documents proving the originating status of the products concerned.
4. Accept periodic monitoring and verification by TDAP, of Company’s accounting records and manufacturing processes.
5. Keep for three years (starting end of calendar year from date of issue of any particular SOO) copies of SOOs made by the Company along with relevant supporting documents.
6. Assume the entire responsibility for use of the REX Registration number allotted to it.
7. Inform TDAP of any alterations in Company’s registration data (furnished in the REX Application Form).

Further details regarding implementation of the REX System and relevant terms/ procedures can be referred from the document “REX Operational Guide” available on TDAP website/ this web page under “Downloads”.
