DELEGATES

A detailed close-up photograph of mechanical components, likely from an automotive or agricultural machine. The image shows several interlocking gears with prominent teeth. A smaller, cylindrical component with a flange is visible in the upper center. The lighting is dramatic, highlighting the metallic surfaces and the precision of the engineering. The background is dark and out of focus, emphasizing the mechanical parts.

Brief Introduction of Company

It is a project of Army Welfare Trust located at 41 – PECO Road, Kot Lakhpat Lahore. The project went into production during May 1990. It was initially designed to manufacture DMS boots. For this purpose it had a plant and machinery from “British United Shoe Machinery Ltd England” (BUSM). The project expanded to manufacture civil pattern shoes as well in Leather Upper with injected PVC Sole and pre moulded rubber sole. The project is also one of the big manufacturers of PVC sole boots / shoes with leather upper in Pakistan. During 2017 injection moulding machine from DESMA of Germany was added to manufacture Double Density Injection Moulded Combat and Jogger Shoes. It has its own lab and a mixing mill which produces rubber- chemical compound in sheet form out of which prefinished and DMS rubber soles are made for boots and shoes.

A collection of sports equipment is scattered on a green lawn. In the upper left is a white soccer ball with black panels. To its right is a tennis racket with a white and blue frame and a yellow tennis ball resting on its strings. Below the soccer ball is a red, translucent plastic water bottle with a white and blue cap. In the lower center is a tan leather baseball glove with a white baseball featuring red stitching tucked into its pocket. A portion of a black object is visible in the bottom left corner.

Brief Introduction of Company

The company was founded by (Late) Sultan Ahmed in 1972, who ventured in the business as a manufacturer of traditional apparels such as Shalwar Kameez, shirts and trousers for men and children.

Realizing the changing lifestyles and emerging fashion trends worldwide, the company shifted its focus to denim. Rajby has a vertically integrated set-up that encompasses the entire process from manufacturing of fabric to garments. The confluence of the best quality cotton, sophisticated technology, and a pool of skilled and seasoned workers ensure that the processes and the products meet prevalent international standards.

Today, Rajby is one of the leading players in the Denim Textile and Apparel industry of Pakistan with significant presence all across the world. It produces 1.5 million meters of denim fabric and 1.3 million garments each month. With state-of-the-art machinery and employee strength of more than 12,000, Rajby is perfectly geared to excel in future endeavors and extend its reach further across the globe.
