

PAKISTAN CUTLERY

TRADE DEVELOPMENT AUTHORITY
OF PAKISTAN

TDAP INTRODUCTION

Trade Development Authority of Pakistan is the premier trade promotion organization mandated to develop and promote products and services of the country in international markets.

TDAP implements policies and directives of Federal Government and its Board of Directors for enhancing, promoting and facilitating trade.

TDAP supports and facilitates businesses through latest information and capacity building initiatives to enhance and improve their leverage in international trade.

To achieve its objectives, TDAP organizes as well as participates in local & international trade fairs, country specific exhibitions, trade delegations, conducts seminars and organizes contacts and information exchange events both physically as well on digital platforms.

This publication is part of the efforts of TDAP to share details and showcase Pakistan's products and services in international markets.

Only quality materials have been used to create this beautiful Knives Set, hand forged kitchen knives. Featuring High Grade Damascus Steel blade. The Red Wood scale is fixed with brass mosaic pin. Comfortable in your hand, you will volunteer to be the cook tonight! For the collector or the Chef Master this set of knives are stylish and built to last Chop, Dice, Slice and Carve your way to being a Master Chef with this set of versatile knives.

Interesting information about Damascus steel:

Damascus steel is an advanced form of shaping steel, derived from centuries-old forging technique used to create blades that became almost legendary in their reputation for strength and sharpness. Recognized by the distinctive pattern on the surface of the metal, the stratified layers of steel are reminiscent of flowing water.

How to care for your new knives: (You will receive a set of care instructions with your purchase)

Store in a dry place, moisture encourages rust. Damascus is very easy to clean if rusted but is rust resistant. After use, wash and dry the blade & apply vegetable oil, or any food safe lubricating oil.

To maintain a beautiful finish, clean the brass on the handle with a brass cleaner. Sometimes Damascus steel darkens with age. To brighten up the blade, sand it lengthwise with a worn piece of sand paper. This just hits the raised portions of the etched pattern and makes the blade look brighter. **HS Code: 8211**
