There are two types of carpet making i.e. machine made and handmade/hand-knotted. Unique designs, durability and natural materials make hand woven carpets superior in quality than machine made carpets. Pakistani hand-knotted carpets are known as one of the finest carpets in the world and due to their top notch quality, attention to details and strength, they are in large demand worldwide. Production of hand-knotted carpets is one of the largest cottage industries of Pakistan. Although mass-produced, these Pakistani hand knotted carpets are traditionally made by the hands of professional weavers who have thrived in this industry for generations.
